Issues.....	3
QM #110: Influenza.....	3
BMI.....	4

Important Notes

- If your group previously activated the Quality Measure #110, Preventive Care and Screening: Influenza Immunization, we have recently activated the newly-released companion measure in gEHRiMed. If you would like us to de-activate the measure for you, please email support@gpm.md.

Enhancements

MIPS Dashboard

The Quality Details window, accessed from the MIPS dashboard, has been updated. The window now includes eligibility information for each measure, and a direct link to the QM search for each activated Quality Measure. These changes enable a more comprehensive view of Quality Measures eligibility to simplify reporting.

Measure	Eligible	Reporting Rate	Performance Rate	Progress
Adult Sinusitis: Appropriate Choice of Antibiotic: Amoxicillin Prescribed for Patients with Acute Bacterial Sinusitis	0	0	0	0 of 10
Advance Care Plan	0	0	0	0 of 10
Coronary Artery Disease (CAD): Antiplatelet Therapy	0	0	0	0 of 10
Dementia: Functional Status Assessment	0	0	0	0 of 3
Dementia: Neuropsychiatric Symptom Assessment	0	0	0	0 of 3
Diabetes: Hemoglobin A1c (HbA1c) Poor Control (>9%) (Inverse Measure)	2	50	0	3 of 10
Documentation of Current Medications in the Medical Record	2	0	0	0 of 10
2 - DRAFT > New QM Search Screen and Follow-Up Plan	52	0	0	0 of 10
Falls: Plan of Care	1	100	100	3 of 10
Falls: Risk Assessment	52	1.92	100	3 of 10
Pain Brought Under Control Within 48 Hours	0	0	0	0 of 3
Preventive Care and Screening: Body Mass Index (BMI) Screening and Follow-Up Plan	52	0	0	0 of 10
Preventive Care and Screening: Influenza Immunization	27	11.11	100	3 of 10
Preventive Care and Screening: Screening for High Blood Pressure and Follow-Up Documented	50	0	0	0 of 10
Preventive Care and Screening: Tobacco Use: Screening and Cessation Intervention	52	0	0	0 of 10

The new **Eligibility Column** displays the number of qualifying encounters within the selected date range. By selecting the new  icon a user may view the QM Search for the selected measure in the selected date range.

QM Search Date Range

The QM Search has been updated to enable providers to select a date range, rather than a single calendar year:

First	Middle	Last	Date of Birth	Facility	Primary Insurance	Patient ID	Eligible Encounters
TEST		NEWDATAOLDWEB	06/30/1945	ZZZTESTFACILITY01 - AL		8993599	1
QM		TESTB	01/31/1945	AUGUSTUS HEALTH - SHP		8993879	2

The following rules apply to date range selection:

- The Start Date must occur before the End Date
- After May (05/01) the date range may not exceed the current calendar year. Before 05/01 the previous calendar year may be included in the date range.
- The  button must be selected to apply the search criteria.

Removed Quality Measure Statistics

Completion percentages have been removed on the QM Edit Screen:

Measure #110 / NQF #0041
Preventive Care and Screening: Influenza Immunization

Percentage of patients aged 6 months and older seen for a visit between October 1 and March 31 who received an influenza immunization OR who reported previous receipt of an influenza immunization.

NOTE: Influenza immunizations administered during the month of August or September of a given flu season (either 2016-2017 flu season OR 2017-2018 flu season) can be reported when a visit occurs during the flu season (October 1 - March 31).

NOTE: A qualifying CPT code must be added for these responses to be valid.

Influenza immunization administered or previously received. [G8482] Previous: 0

Influenza immunization was not administered for reasons documented by clinician. [G8483] Previous: 0
(e.g., patient allergy or other medical reason, patient declined or other patient reasons, or other system reasons)

Influenza immunization was not administered, reason not given. [G8484] Previous: 0

Changed MU Rounding

Rounding has been changed on the Meaningful Use dashboard to extend to a second decimal point instead of rounding up. For example, a measure would now read 1.96% instead of rounding up to 2%.

Quality Programs

Meaningful Use Qualifications for: Modified Stage2 | Provider: Frazier, Alan | Date Range: Custom | Start Date: 08/13/2017

End Date: 11/13/2017 | Total Days: 93 | Test Patient Data | Actual Patient Data | Calculate

Objectives and Measures	Ratio (click for details)	Denominator	Numerator	Goal
01. Protect Electronic Health Information	Attention	N/A	N/A	N/A
02. Clinical Decision Support: Clinical Decision Support Rule	Attention	N/A	N/A	N/A
02. Clinical Decision Support: Drug Interaction Checks Enabled	Attention	N/A	N/A	N/A

Issues

QM #110: Influenza

MIPS information for QM #110 may now be viewed. Additionally, patients are now displayed as eligible for the Assisted Living Influenza measure so long as one of their qualifying encounters occurs during the flu season. The other encounter may occur at any time during the measurement period.

BMI

The BMI field will now be saved to an encounter when importing vitals information from PointClickCare PE+.
