

Boost Productivity &Improve **ROI**

The average practitioner experiences a significant increase in productivity when switching from their former EHR platform to GEHRIMED.

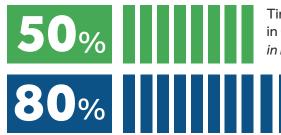

Why? GEHRIMED's Long Term Care specific workflows and custom Encounter templates empower users to nearly double the number of patients they see each day and, therefore, the revenue they generate.

How GEHRIMED helps:

Workflows focused on the things you need and unburdened by the things you don't result in quicker documentation and more efficient visits with patients.

ENCOUNTERS WORKFLOW

Time saved when creating a New Patient Encounter note in GEHRIMED (*Practitioners document a New Patient Encounter in less than 25 minutes on average.*)

> Time saved when creating an existing patient Encounter note in GEHRIMED (*Practitioners document a standard Encounter in 5 minutes.*)

Experience 5 minute Encounter Note documentation with GEHRIMED
