Release Notes – May 2020

Issues Addressed

- Trailing spaces will no longer be erroneously added to the Ethnicity and Race fields on the Patient Details.
- Specialties will no longer fail to display on Directory Listings.

Feature Enhancements

MIPS 2020

The GEHRIMED MIPS Dashboard has been updated with 2020 data and links. Category weights remain the same from 2019.

In 2020, the data completeness requirement for quality measures has increased to 70% of patients across all payers - up from 60% last year. The Quality Measure Scorecard has been updated to reflect this change. If the Reporting Rate is not at or above 70% for benchmarked measures, large groups will earn 0 achievement points and small groups will earn 3 achievement points.

The Improvement Activities for 2020 will be available in an upcoming GEHRIMED release.

MIPS Quality Measures for 2020

Updated Measures

The following measures have been updated for 2020:

- Quality ID #128 (NQF 0421): Preventive Care and Screening: Body Mass Index (BMI) Screening and Follow-Up Plan
- Quality ID #181: Elder Maltreatment Screen and Follow-Up Plan

New Measure

GEHRIMED has added the following Quality Measure for 2020:

- Quality ID #290: Parkinson's Disease: Psychiatric Symptoms Assessment for Patients with Parkinson's Disease
