

July 2020

Release Notes

Issues Addressed

A bug prevented encounters from displaying when the 'Today' filter was selected on the 'View PointClickCare Sent Encounters' window. This issue has been corrected, and Encounters will now display as expected.

ICD10 Diagnosis Codes deleted in GEHRIMED will now also be deleted in DrFirst.

Feature Enhancements

Print Patient Census

A print option is now available on the Patient Census, enabling users to export or print a list of their patients:

The screenshot shows the Patient Census interface with the following data:

Location	Patient	My Last Visit	Last Seen / Provider	Scheduled Visit
Room (Floor)	EXAMPLE_PATIENT L (73 / F)	018d	018d / Provider_E.	05/18/2020 2-Month
Room 00... (Floor 0...)	LASTNAME, FIRSTNAME (72 / M)	103d / 1-Month	103d / Provider_E.	04/18/2020 1-Month
Unknown	PATIENT, JACKSON (72 / M)	054d	018d / Administrator_E.	09/30/2019 1-Month: At vero eos et accusam...

Quality Measure Search

The Quality Measure Search has been enhanced so that the focus returns to the selected record after the opening the QM, Encounter, or Patient Detail rather than returning to the top of the page.

MIPS Updates

Quality Measure Dashboard

The estimated quality measure score displayed on the QM Scorecard and used in the MIPS dashboard estimate composite score has been adjusted to use a maximum category point value of 60 and then re-weighted to represent 45% of your total score. Some practices may have a different maximum point total for this category that is higher or lower than 60, which will impact the actual points calculated by CMS at MIPS submission.

Improvement Activities

2020 Improvement Activities are now available. IA participation requirements have changed for 2020. At least 50% of the clinicians in the group must perform the same activity during any continuous 90-day period, or as specified in the activity description, within the same performance period. The IA scorecard will no longer count provider-selected activities at the group level. Provider and group activity attestations are selected separately.
